

O'Reilly for Higher Education

Essential resources in technology and business

O'Reilly for Higher Education connects researchers, students, and faculty to essential business and technology resources in a modern digital learning ecosystem. More than 46,000 books, over 30,000 hours of video, and resources such as case studies, and expert playlists make O'Reilly a must-have resource for libraries striving to prepare today's learners for the future.

O'Reilly supports users at all levels with multiple learning styles through rich and varied formats, responsive design, and an intuitive user experience that works on any screen size. Today's on-the-go learners can access information on the mobile app anywhere, anytime online or offline.

For more than 40 years, O'Reilly has inspired students and faculty to build skills, find answers, and change the world. It's part of why the O'Reilly platform has been named the "go-to database" for technology by *Library Journal*.

Unlimited access to trusted, curated, and diverse content

O'Reilly knows that learning is personal, not one-size-fits-all. So the O'Reilly platform includes a range of resources in a variety of formats at beginner, intermediate, and expert levels. Plus, students develop business acumen and master key technologies to stand apart from their competitors as they enter the workforce.

Premium business and technology content

46K+ titles and 30K+ hours

of video across multiple learning formats, including audiobooks, learning paths, case studies, expert playlists, and more
